Sir

I have the honor to submit for the Commissioners consideration and approval Estimates for the construction of Bungalows / Nine, at the places mentioned in the Margin / on the high road to Bombay, from Toomkoor to Hurryhur. (I need hardly remark that whatever difference of opinion might have existed formerly as to the necessity of public Bungalows on the road in question, the circumstance of the Madras Troops having reoccupied the Doab calls for

Amounting to C. Rupees 2,690-4 Rs.

for the arrangement as this will be the usual route thence from Madras, Bangalore and Mysore. The Bungalows at Seerah Heroor and Cavenghirray are proposed to be of a larger size than at the intervening Stages but the Average cost in addition to the Labor of prisoners and public Cattalies is only Rupees 300/ I would here remark that I do not purpose to enter on the Construction of the Bungalows immediately as the Cattalies will be for some time fully occupied with the Cutcherry at Toomkoor and the Bridges in progress on the new road, but it will be necessary to procure in the mean time timber and other materials previous to the buildings being actually commenced.—

From

Major L. A. Bell.

Secretary to the Board of Revenue

Department of Public Works

To

Sir H. L. Montgomery Bart.

Chief Secretary to Government.

Sir,

The Government is aware that in 1848 the Board of Revenue, in compliance with instructions, submitted a list of proposed Supplementary Rules for the occupation of Public Bungalows by Travellers the object of which was the provision of more convenient accommodation with a moderate charge for the use of the bungalow and the services of the attendants.

Letter August 7th 1848 No 592.

Encl 2 Engrs Memo.

2. In the order of Government No 329. dated October 8th 1852 the above mentioned letter

letter was noticed, but the Board have not received final orders on the subject; and the Chief Engineer, having, as a Member of the Board, been made acquainted with the correspondence that has taken place, has now suggested in preference to the proposition of 1848, the adoption of the Bengal, or its equivalent the Bombay system of management in the Madras Bungalows.-

According to this system three Servants, with a sufficiency of furniture, cooking utensils and table equipage are allowed for each bungalow; and the expenses are defrayed by a charge of 1 Rupee to every traveller occupying the bungalow for 24 hours or under.-

The result of this arrangement is that while some of the bungalows, being little frequented, do not pay their expenses, others yield a surplus so considerable as to cover the deficiencies,

(on)

and the maintenance of the bungalows consequently cost nothing, it is believed to the Government.-

5. It, however, appears from the accompanying Statement of the probable cost of the new arrangements compared with the returns that may be expected, that the proposed change of system could not be generally introduced without heavy loss, even after making allowance for the acknowledged defectiveness of the registers of Travellers. The Board therefore propose that in the first instance an experiment of the new arrangements shall be made upon the Roads from Madras to Oossoor and Palmanair, both which lead to Bangalore, upon the Road from Bangalore to Cannanoie, commencing at the Mysore frontier, and upon the Roads from Wanambady to Cotacammund and to Conany

Memorandum

Memorandum, by the Acting Chief Engineer

The perusal of the papers now circulated by the Secretary in the Department Public Works regarding the altered footing on which it was proposed to place the Travellers bungalows in the Madras Mofussil* has led to my committing some memo* that I made respecting the maintenance of these useful establishments on the Bengal and Bombay sides.

* 7th August 1848.

In the other Presidencies the "Lodging bungalows" are placed in the exclusive charge of the Postmasters of Divisions, the rents being collected and the establishments paid by executive Engineers, who are responsible for the observance of all rules, and redress of all complaints.

I have personally had the means of watching the Bengal and Bombay system of management for

a)

a considerable time, and of contrasting it with the Madras régime. My impression is that whilst the comfort and convenience of travellers are almost immeasurably greater in Bengal and the North Western Provinces the expense to the State is very much less than with ourselves.

The uniformity in respect to accommodation and establishment is so constantly adhered to that travellers can confidently trust to a certain amount of comfort and assistance at every stage where they may halt, and they make their arrangements accordingly. In this way the bungalows are supported by the class for whom they are kept up, and in some cases they very much more than pay for their own expenses.

I should have mentioned as an instance of the liberal feeling so prevalent on this subject, that the Lieut. Governor North Western Provinces has sanctioned

sanctioned expenditures not exceeding 500 Rupees on any staging bungalow at the joint recommendation of the Post master General and the Superintending Engineer of the circle in which the bungalows are situated. In other words, these two officers have concurrent power of sanctioning repairs within the above limit of their own authority and they grant assignments of cash to the Executive Engineers for the carrying out of the Estimates.

The establishment kept up for the public consists of.

1 Khansamah	butler.
1 Khidmatgar	Maty
1 Mehter	Sweeper.

on a fixed pay disbursed monthly by the Executive Engineer and charged for in his current expense bills.

A payment of one rupee per head is levied on each traveller who

uses

uses the bungalow if only for an hour and a second payment is due after a lapse of 24 hours. It is far from uncommon to incur these charges at two bungalows on the same day; and under no circumstances are they remitted Ethnic a smaller rate prevails for children. Servants gratuities depend on the liberality of travellers, and on well frequented routes, the staging bungalow establishments receive double and triple the fixed amounts of their monthly pay.

The furniture in each staging bungalow, which the executive Engineer is responsible for, consists of

2 Tables
4 Chairs
2 Bedsteads
2 Washhandstands with furniture complete
2 Commodes.

and

(1

and the Table furniture supplied by Government and kept up by the Post master or the Executive Engineer, have been fixed as follows,

1 Tea Pot.
1 Milk Jug.
1 Sugar Bowl.
2 Egg cups.
4 Plates.
2 Soup Plates
2 Butter plates
2 Curry Dishes.
4 Knives & forks.
4 Table Spoons.
4 Dessert &c
4 Tea &c
1 Mustard Pot.
1 Salt cellar.
4 Tumblers
2 Candlesticks with oil burners and the cooking Utensils kept up by Government consist

5

of the following articles.

4 Degshas with covers (Lance pans)

1 Kettle.

1 Frying Pan.

1 Spit.

1 Pestle and Mortar

Can or does there any reason exist, why rules that are found to work well in Bengal and Bombay, should be so excluded from Madras.—

With reference to a letter from the Secy to the Board of Revenue regarding certain new Rules for Travelling Bungalows, requesting the opinion of Govt on the proposals

Public Works Departt.

No. 117

Extract from the Minutes of Consultation

Under date the 13 March, 1855.

Read the following letter from the Secretary to the Board of Revenue on the Departt. of Pub. Works.

Fort St. George 13th. November 1854.
No. 935.)

The Right Honorable the Governor in Council sanctions the trial of this plan to the extent proposed in para: 7 of the Board's letter, at an estimated expense of Rupees (1275) one thousand two hundred and seventy five cost of Furniture and an annual expence of Rupees (2,448) two thousand four hundred and forty eight for Establishment which it is observed if the Board's anticipations

of

of the returns, are received, will not involve any permanent increase of expenditure.

2. The Board have selected for the experiment, certain Bungalows at intervals of three stages. but as other considerations than that of distances may in some localities influence travellers in the selection of their halting places. the Government thinks it desirable, that the Board before issuing their instructions should put themselves in communication with the local authorities and thus determine which Bungalows along the lines of road selected, are in every point of view unexceptionable for the purpose.

3. The Board will eventually submit to Government for publication in the official Gazette

a list of the Bungalows so selected with their respective distances. and also a draft of the Rules for their management and use. Those in force in the North Western Province and which are printed at page LXXIII of the appendix to the Post office manual may perhaps answer, with some slight modifications - and copies of them should be placed in each of the Bungalows

Resolved that as it is necessary in order to give effect to the instructions of Government, that the system should be carried out along the Western Trunk Road in the Mysore territory - Copies of the Board's letter. and its enclosures together with Extract from the proceedings of Government be forwarded to the Commissioner of Mysore for his

his information..
